

Sección Sindical easyJet

6th July 2022

Dear colleagues,

We are writing with an update on the triggering of Article 7 following on from our ballot on 17th June.

The company complied with the first mediation meeting on 28th June in which we presented a revised counter proposal.

They then had 8 days to call a second meeting to discuss this, but failed to conform to this deadline.

Today, on the first CLA meeting since the weekend of strike action, the company has still failed to table any kind of revised proposal and the meeting was absolutely unproductive.

Taking all of this into consideration, we are now proposing to start the process of forming a Strike Committee which will lead us down our own path of strike action.

As always, we will only act on the wishes of our members so you will find attached a survey link with the following simple question:

Do you support Sitcpla in the forming of a strike committee and proceeding with industrial action?

We want to mobilise the process as soon as possible therefore the survey will close tomorrow at 4pm.

Many thanks for your continued engagement and we remain at your disposal if you have any questions.
