

Dear colleagues,

The 2nd meeting regarding the CLA negotiation took place last 8th of November.

During this meeting the airline has asked for additional information on almost every point we had already given to them during the 1st meeting.

Although most of this information could have been asked by the airline representatives in the meantime, via email during the past weeks, we have taken the opportunity during this meeting to, face to face, explain ourselves further to them.

We can now state that they have all the necessary information to assess our demands accordingly and answer us back in the next meeting as agreed.

Although we would like the negotiations to move faster, we have been asked for patience by the airline as they have to run our proposals to many different departments, in this case next 15th of November meeting has been postponed, being the next scheduled meeting on the 22nd. We are confident that the negotiations will move faster in the future as the agreement come closer.

We have reminded the airline, that the same way we work on daily basis throughout the year with our union members, the CLA agreement is our highest priority at this time.

We want to believe progress will be achieved and that no one is willing to waste anyone's time.

We will keep you updated, and as always you can contact us through email at sitcplaeasyjet@sitcpla.es.

Safe flights,

Your SITCPLA reps
