

Dear colleagues, after last week's announcement of the AGP base opening we finally had the chance to conversate with EZY regarding the future possibilities for Spanish based crew.

Whilst the airline has not answered any specific questions regarding possible redundancies, aircraft base changes or any other key elements, as they argue that they still don't know final outcomes;

They asked us about the possibility of **freezing pay raises** for the next two years in order for them to reduce costs, no further details apart from this proposal were given to us at this start point.

As a result of this proposition, and in preparation for further meetings and/or counter proposals from our side we would like for you to fill up this brief questionnaire in order for us to have a complete understanding of the community and your preferences to act accordingly.
