

30th June 2023

### **Start of Contract Letter (8/4 - 9/3)**

Eileen and the HR Team are still looking into this and we have pushed them for clarity. We are still waiting for their answer and our advice to you remains the same that for the moment we recommend you do not sign the letters.

### **Eat. Drink. Shop Stock Shortages**

We have raised this issue with the Inflight Retail Team and are awaiting their response. Please keep using missed sales on EPOS and reporting issues on your Bar/Catering Report Form so we can use this data to make a claim for lost commission should these problems continue.

### **Roster Balance**

Please keep reporting any roster issues through your base roster forum rep.

### **SITCPLA Points of Contact**

Please use the WhatsApp group, SITCPLA 'hotline' telephone number or email address to contact us as messages to individual reps may get lost or take longer to reply to as the summer flying programme intensifies for all of us.

### **SAYE Issues**

If you have had any issue with your SAYE contributions during winter inactivity or any recent maternity period, please let us know as we identified and solved this issue for one of our members this week.

### **Unserviceable APU's**

If you are experiencing unserviceable APU issues and no solution is in place (ie GPU) to keep the cabin cool, please file a CSR through SafetyNet.

### **June Payslip**

You should find a payroll adjustment in your June payslip for for any DDO payments made since 1st January 2023 (an increase of €10 per DDO occurrence) and a backpay of €41.70 for the 3rd language payment equating to a monthly increase of €8.34 for

the 5 months January to May. The new language payment should be correct for June with the new rate being €29.17

### **SAYE 2023**

Don't forget the deadline to apply is 5pm (UK time) on Tuesday 11th July and the exercise price this year is £4.07

As always, thank you for your support and we wish you a great weekend.
