

9th June 2023

### **8/4 to 9/3 Contract Letters**

Following on from last weeks update, our legal team still believe that the contract letters must reflect the change from 8/4 to 9/3 in the 2022 season and we have again challenged the company about this. We will let you know once we have had a reply.

### **Winter Leave**

We asked the company to review leave availability in seasonal bases on the back of your feedback. They have told us that additional leave was released into the system last Friday.

If you are still having problems booking outstanding leave, please let us know.

### **Alicante Transfer Process**

We are keen to engage with the company before the transfer request window opens next week to ensure a fair and transparent process respecting the CLA is followed.

We have repeatedly asked the company for clarity and are awaiting their response.

We expect to send out a separate communication to you before the window opens next Friday.

### **Tax Declaration de la Renta**

We remind you that the deadline is approaching at the end of June to complete your tax declaration. The accountant recommended by SITCLPA and offering a discounted rate can be found in the email dated 14th April.
