

## Sección Sindical easyJet

3rd February 2023

### **eCG Survey**

We have talked before about The eCG – easyJet Cabin Crew Group - an international forum where all recognised Cabin Crew Trade Unions are united in obtaining and discussing common matters for the entire Cabin Crew Community.

Last year, we collectively made a proposal to the company to implement a Loyalty Recognition Scheme which was rejected.

It is crucial that we represent the wishes of the crew community so we have created a short survey in order to understand your feelings, your engagement and if you would like us to pursue this kind of Loyalty Recognition Programme.

We will be sending you a link to the survey when it launches across the network on Monday and if you have any problems, concerns or feedback, please let us know.

### **CLA Negotiations**

The company sent us their 'final draft' of the CLA just before 6pm on Tuesday evening ahead of our meeting on Wednesday morning.

Clearly, there wasn't sufficient time to review the document ahead of the meeting and we are now in the process of this, along with our lawyer ready for discussion next Wednesday.

### **SAYE Pre-Payment**

In recent weeks we have noticed that the company has not correctly followed the procedure on the SAYE pre-payment to cover the winter contributions.

Those of you who have SAYE and made the pre-payment in October/November are invited to check your account and, in case you have not made the payment for the four months, please contact [employeebenefits@easyjet.com](mailto:employeebenefits@easyjet.com).

As always, we will keep you updated.
