Crewing

There have been some reports this week of unusual activities from crewing like calls being made out of SBY hours and changes automatically being acknowledged without notifications.

If anything like this happens to you, please let us know.

March Leave (Seasonal Bases)

We escalated the issue yesterday that is affecting several members in seasonal bases who have had leave removed from March 2025.

We have highlighted 3 priority issues that need resolving:

- Crew have booked holidays in March 2025 on the basis that LVE and WDO were granted.
- The auto-allocation of this 'displaced' LVE in Nov/Dec is attracting x10 points which will unfairly affect the ranking in next years leave bidding.
- The auto-allocated LVE has been placed randomly without WDOs

We have highlighted the urgency of this issue being that 2025-26 Leave Bidding opens in 23 days.

As soon as we have more info, we will let you know.

Have a great weekend
