Payroll Update

After months of discussion and providing evidence highlighting a problem SITCPLA uncovered, the company have finally agreed to change how sickness is paid in a 31 day month.

Previously, in months with 31 days, if sickness occurred, one of the sick day payments was eliminated, due to the fact that our basic monthly salary is divided by 30 days.

Going forward and back dated to 1st January 2024, the sickness subsidy payment will include the 31st day.

The company acknowledge that there is a legal loophole in the current regulations although the legislation is not explicit.

They believe however, that it is fair and beneficial to recognise this additional day in the months that have 31 days and we are pleased about this.
