

20<sup>th</sup> September 2024

### **ALC Rosters**

We have collaborated with USO on the issue of crew productivity issues in ALC and have composed a letter asking for explanations on the tripping of crew from other bases into ALC. We will let you know more when we have their response.

### **RTVE**

SITCPLA reps for Air Europa and Iberia will be talking about equality and earlier retirement age on canal24horas at 1440h on Sunday on #objetivoigualdad

### **Crew Food**

On Wednesday there was a crew food event in PMI for tasting of the hot food options for breakfast and lunch/dinner only.

The cold dishes (salads and sandwiches) will be chosen in October in another session, together with snacks, fruit, contents of the boxes, milk, juices etc.

#### Breakfast

Based on your feedback, It was decided to remove hummus as it was not a popular option. We chose to substitute it for a 4th hot breakfast, 3 savoury and 1 sweet and we will keep the 2 cold meat and cheese options.

#### Hot meal

It was decided to add 1 hot meal and remove a salad as they were not very popular. If this does not work, for the summer menu we could add another salad and remove a hot option.

We have also asked for salt and pepper to be loaded.
