

26th January 2024

PMI CM Hold Pool

We have received good news that all the crew in the CM Hold Pool for PMI awaiting a course will be attending their training during March and April. If you are on the 5453 pattern you might be contacted to move some days off around to accommodate the course.

Payroll Meeting

If you have any issues you would like us to raise with payroll please let us know as soon as possible so we can let the team know ahead of the next meeting on 15th February giving them some time to prepare any responses.

Equality Plan

For the last year, SITCPLA, together with USO and SEPLA have been working with the company on the first equality plan to be produced for Spain.

We are pleased to say this was signed on Thursday and will now be sent to the authorities for approval before being made widely available for your reference.

We believe it's a big step in equality, diversion and inclusivity and you will find lots of information in there about the protocols in place for prevention of harassment on grounds of sex or sexual orientation for example.

We will update you when the document goes live.

We wish you a great weekend.

Your SITCPLA Reps
