

28th June 2024

### **PAYROLL MEETING**

Next Monday 1st of July we will meet in person in Barcelona with the Payroll team to carry out some changes in the payroll to make it easier for everyone to understand.

We will give you more information at the end of the meeting.

### **NUMBER OF SBYS**

Yesterday, in our monthly meeting with the company, we again emphasised the high number of sby in the Spanish bases. We showed them our concern about the high number and the current situation in the temporary bases as well as in Barcelona for the winter season. Due to the high number of sby in all Spanish bases, we highlighted the need to establish an additional payment when the number of sby is higher than the acceptable average. Following the payment model already established in France, where an additional payment is generated from the sixth sby onwards. Valeria assured that they are reviewing the situation in all Spanish bases and will be able to provide more information once they have all the data.

### **TRANSFER LISTS**

Once the transfer lists for next year have been finalised, they are being reviewed and the final transfer lists will be available soon.

### **CURRENCY OF THE REVENUE TARGETS**

As we have been telling you in the last few days, in the meeting that took place in Alicante with Angela Mullen and Valeria Cerri, it was confirmed that the currency used in the Spanish bases will be euros. The targets in the crew brief are in the local currency, euros. So you should take this into account immediately.

Wishing you a good weekend!
